

HESS-2016-120, Reply by the authors to Editor comments

Dear Prof. Thomas Kjeldsen as handling Editor,

We replied to all comments that were formulated by the reviewers. We uploaded detailed revision reports on the HESS server.

With respect to the language issue, we confirm that this manuscript was thoroughly checked by both co-authors, and further polished with language correction software (Ms-Word language check / 'grammarly' add-in plug). We also rely on the English copy-editing service that is offered by the HESS editing office to further polish the language, if needed. We hope that with this, the English level will be sufficient for accepting publication in HESS.

Best regards.

Issoufou Ouedraogo
