

COMMENTS TO THE REVISED VERSION OF THE MANUSCRIPT HESS-2016-22

Dear Editor,

I apologize for not being able to send my report before the deadline day.

The manuscript HESS-2016-22 was improved and reached a good quality level.

The authors gave a complete and detailed answer to all the comments to the previous version.

At the end, my suggestion is to accept the paper for publication.

Sincerely,

D.C.
