

Interactive comment on “Can canopy interception and biomass be inferred from cosmic-ray neutron intensity? Results from neutron transport modeling” by M. Andreassen et al.

M. Andreassen et al.

mie.andreassen@ign.ku.dk

Received and published: 3 October 2016

The response letter (pp. 1-25), the revised manuscript (pp. 26-61) and the revised manuscript including tracks (pp. 62-115) are uploaded as one pdf file (see "supplement").

New and changed figures have also been uploaded (Figures 1, 3-6 and 10).

Please also note the supplement to this comment:
