Received and published: 22 July 2016

The authors would like to express thankfulness to Referee #2 for the thorough review, thoughtful suggestions and raising critical points for discussion. It is a pleasure that this valued review finds the aims of our study interesting and the results encouraging. We have taken all comments and suggestions of Referee #2 on board and prepared a detailed point-by-point response with applying the required modifications across the manuscript. We hope our response clears up the Referee's concern and strengthens our work.

Kindly, please find attached to this comment a supplementary zip file containing three pdf files: 1. The authors' point-by-point response to Referee #2. 2. Revised version
