

Interactive comment on “Understanding Hydrologic Variability across Europe through Catchment Classification” by Anna Kuentz et al.

B. Schaefli (Editor)

bettina.schaefli@unil.ch

Received and published: 28 October 2016

The paper received three detailed reviews, which all conclude that the paper could become an interesting contribution to HESS but that it requires major modifications. I therefore invite the authors to answer these comments as soon as possible in the public discussion, before preparing a revised version.
