Figure S1. Daily observed and simulated $SWC \ (\theta)$ during the calibration (2008–2010) and validation (2011–2012) periods at TP 2 location.
Figure S2. Daily observed and simulated $SWC$ ($\theta$) during the calibration (2008–2010) and validation (2011–2012) periods at TP3 location.
Figure S3. Daily observed and simulated SWC ($\theta$) during the calibration (2008–2010) and validation (2011–2012) periods at TP4 location.
Figure S4. Daily observed $SWC$ ($\theta$) at TP 4 location versus the average observed $SWC$ ($\theta$) at the other three locations (TP 1-3) during study period.
