Interactive comment on "Extending flood forecasting lead time in large watershed by coupling WRF QPF with distributed hydrological model" *by* Ji Li et al.

D. L. DE LUCA

davidedeluca@libero.it

Authors should mention in details the topic of uncertainty evaluation in real-time flood forecasting. They could cite as examples: Biondi, D., De Luca, D.L. (2012). A Bayesian approach for real-time flood forecasting. Physics and Chemistry of the Earth, 42-44, pp. 91-97. DOI: 10.1016/j.pce.2011.04.004

Biondi, D., De Luca, D.L. (2013).Performance assessment of a Bayesian Forecasting System (BFS) for real-time flood forecasting.Journal of Hydrology, 479, pp. 51-63. DOI: 10.1016/j.jhydrol.2012.11.019
