Interactive comment

Interactive comment on "Extending flood forecasting lead time in large watershed by coupling WRF QPF with distributed hydrological model" by Ji Li et al.

D. L. DE LUCA

davidedeluca@libero.it

Received and published: 28 November 2016

Authors should mention in details the topic of uncertainty evaluation in real-time flood forecasting. They could cite as examples: Biondi, D., De Luca, D.L. (2012). A Bayesian approach for real-time flood forecasting. Physics and Chemistry of the Earth, 42-44, pp. 91-97. DOI: 10.1016/j.pce.2011.04.004

Biondi, D., De Luca, D.L. (2013).Performance assessment of a Bayesian Forecasting System (BFS) for real-time flood forecasting.Journal of Hydrology, 479, pp. 51-63. DOI: 10.1016/j.jhydrol.2012.11.019
