

Dear Editor, dear Referee,

Thank you very much for the general acceptance of the revised version of my manuscript. The text was provided to the native speaker (American); indeed, many linguistic errors have been found. I hope that the revised text fulfils all requirements and is devoid of glaring deficiencies.

The revised text contains corrections and changes in a non-compacted form, due to your wish.

Thank you again for your time spent on my work.

Sincerely yours,
Jacek Kurnatowski
