

Response to the Editor

(Hydrol. Earth Syst. Sci. Discuss., doi:10.5194/hess-2016-565, 2016)

Editor report

The manuscript has been improved, but some further technical modifications can be useful to facilitate a proper editorial finalization of the paper.

We thank you for your recommendations. They were considered in the new version of the manuscript. The modifications are highlighted in yellow in the text.
