Dear Editor in Chief, Copernicus Publications Journal of Hydrology and Earth System Sciences (HESS)

I hereby send the author's response to the interactive comments on the manuscript entitled "Quantification of runoff generation from a combined glacier and páramo catchment within an Ecological Reserve in the Ecuadorian highlands". We are carefully considering and implementing the reviewers' comment to have a new version of the manuscript suitable for publication in HESS.

Best regards,

C1

Veronica Minaya and co-authors

The detailed answers to the reviewers' comments are attached in the supplement link as a pdf file. Check:
