Interactive comment on "Upscaling of soil moisture content from surface to profile: multi-station testing of observation operators" *by* Xiaodong Gao et al.

Xiaodong Gao et al.

xiningz@aliyun.com

Received and published: 6 December 2016

Dear editors, referees and all readers,

We are very sorry that there is a mistake in the section 2.1 in Materials and methods. The number of SCAN stations used in this paper should be 12 rather than 31. The Table 1 also includes the information of the 19 stations which were not used in this study. The corrected version of Table 1 is attached. Really sorry for the confusion.

Sincerely, Xiaodong Gao
