

Interactive comment on “Pesticide fate at catchment scale: conceptual modelling of stream CSIA data” by Stefanie R. Lutz et al.

Stefanie R. Lutz et al.

stefanie.lutz@ufz.de

Received and published: 4 August 2017

We thank the editor for her appreciation of our work and the invitation to revise our manuscript.

We have already replied to all reviewer comments and will consider those in the revision. We will improve the mathematical notations as well as the distribution of the material between main text and supplementary material. We will also avoid multi-letter variables in the revised manuscript.

We will submit the revised manuscript in due time.
