In their response the reviewers, the authors state that "50 days have greater than 0.5mm in of rainfall.", while in text it is stated in Section 2.2 "with only 50 days typically recording greater than 25.4 mm". As this latter intensity value is quite sever, please make sure this is not a typo.

We thank the reviewer for catching this oversight. We have made the necessary change on line 115 of the text. We have also made several small grammatically changes through the text.
