We thank Prof. G. Pegram for his recommendation for the publication of our manuscript as is.

We have modified the manuscript based on the comments of other Reviewer, Dr. Fabio Oriani. We would like to mention that we noticed discrepancy in reading data from NWP model outputs. Dr. Vincent Fortin from the Environment and Climate Change Canada (ECCC) pointed out our errors in reading in these datasets. The modified results are presented in the revised version of the manuscript.
