Interactive comment on "Assessment of uncertainties in soil erosion and sediment yield estiamtes at ungauged basins: an application to the Garra River basin, India" by Somil Swarnkar et al.

## **Anonymous Referee #2**

Received and published: 14 February 2018

This manuscript is very well written, although there are some inconsistency and issues which I have highlighted in the review report.

I hope other reviewers are able to cover the methodological part of the uncertainty in soil erosion as this is not my field of expertise.

Thank you for this opportunity!
