Received and published: 6 September 2018

Dear authors, The "discussion" phase (HESS-D) is now finished. Thank you for providing comprehensive replies to the referees' comments and suggestions for revisions (which were very useful in my opinion). Based on the discussion, it can be concluded that the paper is at the level to be considered for HESS publication. You will now have the time and opportunity to update the manuscript accordingly, and submit the new version to the editorial office. After that it will be sent to the referees for their evaluation before publication in HESS. Good luck.
