Received and published: 24 January 2018

On behalf of all co-authors, I am proud of finishing the due revision of the manuscript (<https://www.hydrol-earth-syst-sci-discuss.net/hess-2017-474/>) with all reviewers' and editors' comments. However, we can only proceed with the submission after receiving the corrected version checked by an English native translator we contracted. Because today is the deadline (Jan. 23th.), we warmly ask you and the HESS Editorial Board for a kind concession of a few days to finish this English style checking. It will be concluded asap. Should you prefer contact us directly, herewith I share mine: Direct Mobile +55 16 997281438 (Denise Taffarello), or our Skype contact: Eduardo.mario.mendiando

C1

(my Supervisor and the last author of the manuscript). Looking forward to receiving your comprehension.

Best wishes, Dr. Denise Taffarello.
