Interactive comment on "Optimizing micro watershed management for soil erosion control under various slope gradient and vegetation cover conditions using SWAT modeling" *by* Ghulam Nabi et al.

Ghulam Nabi et al.

engr.fiaz@uaar.edu.pk

Received and published: 19 December 2017

Dear Editor, N. Romano,

Thank you very much about to start the discussion and additional comments. We are preparing the reviewers comments response as they have done an extensive work on reviewing the paper and there are some major corrections. We need more time so that the quality of work should be improved and comments should be fulfilled properly.

Kind regards, Fiaz Hussain
