Dear authors and editor,

In the "Current topics in Earth System Science" (ESS 401) course at the University of Zurich, we ask students to choose a manuscript that was recently submitted to one of the Copernicus journals and to write a review for this manuscript. Two students (Hannes Tobler and Sebastian Röthlin) chose your manuscript and wrote the attached review. We hope that you find it interesting and useful.

Best regards,

C1

Ilja van Meerveld
