Dear editor and reviewers of Hydrology and Earth System Sciences,

Please find attached as a pdf file our detailed responses to the comments made by the three referees regarding the paper “Riparian evapotranspiration shapes stream flow dynamics and water budgets in a Mediterranean catchment” (hess-2017-735), which in the new version will be entitled “Riparian evapotranspiration is essential to simulate stream flow dynamics and water budgets in a Mediterranean catchment”.

Overall, we feel happy with the positive reviews and that the reviewers found the study

interesting and a potential contribution to Hydrology and Earth System Sciences journal. Their suggestions as well as their editing corrections have been of great help for us.

Sincerely,

Anna Lupon. Cc: José L. J. Ledesma and Susana Bernal
