We thank the reviewer for his constructive comments and some interesting references.

We have attached our detailed response to this text where we address all comments in a structured manner. Please note that original reviewer comments are in italic black font, our responses in blue font, and editions to the manuscript are quoted with a smaller black font (using the manuscript font type). Any mentions of manuscript pages or lines are referred to the original published version in HESSD.

Please also note the supplement to this comment:
