Interactive comment on "Subsurface hydrological connectivity of vegetated slopes: a new modeling approach" *by* Massimiliano Schwarz et al.

Massimiliano Schwarz et al.

filippogiadrossich@hotmail.com

Received and published: 29 January 2018

The Introduction has been improved and literature supported by more references. In Materials and Methods, the Section 2.1 "Study area" have been re-organized. Please find attached a revised version of the manuscript.

A complete revision of the english will be done at the end of review processes.

We hope on a constructive review of the rest of the manuscript.

Please also note the supplement to this comment:
