Thank you for the response,

It addresses many of my comments.

Regarding the comment made on Pg. 5 ln. 29. "How were the corrected CSPG\_DFIR measurements “proven” to be true in rainfall? Was it using the pit gauges?", it would be sufficient to simply reference the similar comparison made by Chen et al., 2015 (<http://www.the-cryosphere.net/9/1995/2015/>).

Thanks again, John
