Received and published: 22 May 2018

We are very grateful to the Reviewer for the positive and careful review. Most of the comments are about clarification and organization, and they are very helpful in improving the manuscript. We will consider them seriously and address them to the extent possible.

Given that the closing date for the open discussion is tomorrow, we will submit our detailed responses to the reviewer after the editor's initial decision for this open discussion.

Interactive comment on Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2018-112>, 2018.
