Interactive comment on "The effect of initial water distribution and spatial resolution on the interpretation of ERT monitoring of water infiltration in a landfill cover" *by* Gaël Dumont et al.

G. Dumont

gdumont@ulg.ac.be

Received and published: 16 July 2018

Dear referee,

I really thank you for the time you have spent reviewing the manuscript. Indeed, a formatting error occurred when I finalized the manuscript in order to match the HESS format. Section 2.5 has been copied twice, but no text is missing. Numbering for discussion and conclusion is wrong. Correct numbers are: 5-Discussion; 6-Conclusion. I made the necessary correction and contacted the editor. There is unfortunately no

Printer-friendly version

Discussion paper

way to upload a new pdf file for now.

Best regards,

Gaël Dumont
