Interactive comment on "Comment: Getting the Methodology Wrong for Analysing the Hydrological Changes in Watersheds" *by* Nitin Bassi et al.

Nitin Bassi et al.

R.A. Woods has not commented on the arguments presented in our article. 'Kindness in Science' does not mean that scientific community turn a blind eye to a work which is either conceptually weak or methodologically flawed. We would like to reiterate that commentary by Bassi et al is such a 'critique' and not a 'personal criticism'.
