

Interactive comment on “Technical note: rectifying systematic underestimation of the specific energy required to evaporate water into the atmosphere” by Andrew S. Kowalski

A. Kowalski

andyk@ugr.es

Received and published: 24 April 2018

I thank Professor Petty for engaging on this issue. I proposed this referee because of the combination of his authority on the matter and doubts regarding my derivation. I believe that he is correct and will withdraw the manuscript from consideration for publication.
