Dear Dr. Sprenger,

Thank you again for reviewing this manuscript. We are just updating some of our responses to make them consistent with late amendments that we have done in the manuscript following the suggestions of referee 2 and 3. The changes are not substantial, but we have removed, added and/or modified text in order to incorporate the suggestions of the other reviewers without affecting the general coherence of the text. Please find attached a pdf with the updated responses.

C1

Best Regards,  
Adrià Barbeta (on behalf of all co-authors).

Please also note the supplement to this comment:
