Received and published: 10 October 2018

We want to extend a quick gratitude to the reviewer for highly constructive criticism. We needed such a detailed review for the improvement of our work. We also thank him for providing us the option of re-submission. We assure the reviewer that his criticism is very well taken and will be addressed to the extent of his satisfaction in our revised draft. For the time being, we'll wait for the comments of the second reviewer and will inculcate all the suggest comments, simultaneously.
