Interactive comment on "Rainfall Estimates on a Gridded Network (REGEN) – A global land-based gridded dataset of daily precipitation from 1950–2013" by Steefan Contractor et al.

Dimitri Solomatine (Editor)

d.solomatine@un-ihe.org

Received and published: 19 June 2019

The referees were quite positive, but brought to the attention of authors interesting and important points, some of which are absolutely vital for accurate presentation of the rainfall data. The authors in their replies have clearly shown that they understand the comments well, and explained how the manuscript will be updated to address the comments. The authors will be invited to revise the manuscript.
