Received and published: 29 June 2018

We appreciate the thoughtful comments from the reviewer, which have helped us to improve the original manuscript significantly. We explain in detail how we responded to the reviewer’s comments, with line numbers referring to the revised manuscript unless otherwise noted.

We have attached the authors’ response for reviewer’s comments as well as revised manuscript as a supplemental file. We would really appreciate if you could check both files for further review.

Please also note the supplement to this comment:
