Dear Editor-in-chief,

Please find attached to this letter the revisions to this manuscript with the track changes. All the changes can be tracked on the track-change document with file name “hess-2018-95\_review\_track-change.pdf”, but the last version including another last review is given in the document: “hess-2018-95\_07-09-2018.pdf” without track change (unfortunately erased!) and available as supplement in the ‘Letter to Editor’ comment. Thus please consider this last version for publication (also given in pdf version).

Please, do not hesitate to contact me if you have any further questions or comments, or if anything is missing from the submission of the revised manuscript.

Regards,

Fanny Larue
