

Production upload:  
Using GRACE to derive corrections to precipitation data  
sets and improve modelled snow mass at high latitudes

Emma L. Robinson

Douglas B. Clark

Some trivial changes were made to the text before submission for production:

- Since submitting the paper, the name of our institution has changed to “UK Centre for Ecology & Hydrology”, so we have changed our affiliation accordingly.
- We have updated the acknowledgements.
- We have moved the figures to the end of the text.
