

Dear Dr. Blöschl:

Thank you very much for handling our paper. Following the review process, our paper has improved greatly and we are appreciative.

We have improved all of the figures and uploaded them separately. The quality of the individually-uploaded figures is better than is shown in the final PDF version that is also uploaded. We made all of the suggested corrections to the figures.

We also corrected the section numbering.

We look forward to hearing about the final status of the paper.

Sincerely,
Dorothy Hall
