C1

$$\bar{P}_{\text{WRF/PERSIANN-CCS}} = \frac{\sum_{i=1}^N P_i F_i}{N}$$

After correction, it is as follows:

$$\bar{P}_{\text{WRF/PERSIANN-CCS}} = \frac{\sum_{i=1}^N P_i F_i}{A * N}$$

The unit of P_i is mm, the unit of F_i is mm², and A is the basin area, mm². The units of these variables will be added in the revised version.
