

Interactive comment on “Hydrograph separation: an impartial parametrization for an imperfect method” by Antoine Pelletier and Vazken Andréassian

Antoine Pelletier and Vazken Andréassian

antoine.pelletier@irstea.fr

Received and published: 5 November 2019

Thank you for this helpful exchange. We will incorporate your remarks in the revised version of the article, through a clearer definition of baseflow and our purpose with the computation of one of its estimate. In particular, process-based interpretation will be avoided in the revised manuscript.

Interactive comment on Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2019-503>, 2019.
