Received and published: 10 November 2020

The paper has benefited from constructive comments from two reviewers who are familiar with the subject matter and the methods used.

Both reviewers are favorably impressed with the topical relevance of the paper, the literature review, the novelty of the methods adopted and the understanding gained from the analyses. The reviewers have identified several shortcomings with the presentation. Addressing these will improve the quality and impact of the paper.

The authors have responded well to these constructive suggestions from the review-
