

# ***Interactive comment on “Learning about precipitation orographic enhancement from snow-course data improves water-balance modeling” by Francesco Avanzi et al.***

**Bettina Schaepli (Editor)**

bettina.schaepli@giub.unibe.ch

Received and published: 9 February 2021

The paper has received two reviews, which are both very positive and make only minor suggestions to further improve the manuscript. I invite the authors to answer the questions / comments in the public discussion before preparing the revised version.
