Dear editor,

We would like to request to change a typo in the equation (7). Currently it is displayed as:

$$\Sigma = \begin{bmatrix} 1 & c_{12} & \cdots & c_{1(m-1)} & c_{1m} \\ c_{21} & 1 & \ddots & \vdots & c_{2m} \\ c_{31} & c_{32} & \ddots & \vdots & \vdots \\ \vdots & \vdots & \ddots & 1 & c_{(m-1)m} \\ c_{m1} & c_{m2} & \cdots & c_{(m-1)m} & 1 \end{bmatrix}.$$

(7)

The yellow highlighted element of the matrix should be $c_{m(m-1)}$ since as it is the equation currently $(c_{(m-1)m})$ mean that it corresponds to the row (m-1) and column m which is not correct. This change does not modify anything else in the manuscript.

I hope you can change this typo.

-Álvaro Ossandón
