

I read with interest the answers to the review and I think that the manuscript is improved. There is just a couple of phrases that must be checked.

Minor comment:

Line 24: "occurred worldwide during 2000 to 2020", it should be: "during the period from 2000 to 2020".

Line 65: "Using the correlation coefficient makes that a network reflect relationship between region": this phrase should be rewritten in a better way.
