

Dear Markus,

Please find with this upload the final version of the manuscript, in which we addressed the points that were raised by reviewer 1. We refrained from changing the figure captions, since we think that extra clarity on the meaning of different symbols and colors (although captured in the legends as well) could help future readers to orient themselves more efficiently.

Many thanks again for your efforts in handling our manuscript.

On behalf of all co-authors,

Leonie Kiewiet
