

Choose a dataset:

Mountainous basin

Choose a model:

Hydrological model

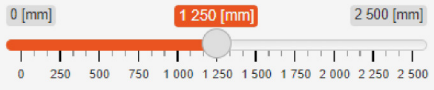

GR4J

Snow model

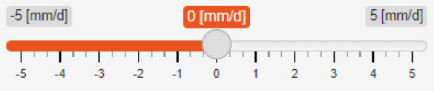

None

Parameters values:

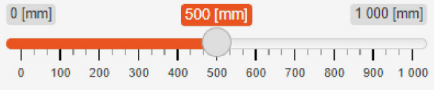

X1 (production store capacity)

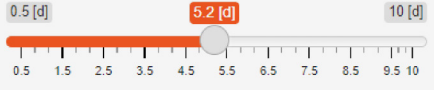

X2 (intercatchment exchange coeff.)

X3 (routing store capacity)

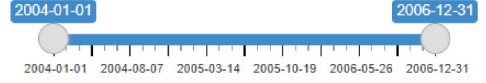

X4 (unit hydrograph time constant)

Choose a plot:

Flow time series

Select the time window:

Error: Non convenient date for the simulation period "SimPer"

Error: Non convenient date for the simulation period "SimPer"

Show previous simulation (Qold)

No Yes

Download sim. as csv

Download plot as png

Error: Non convenient date for the simulation period "SimPer"
