

## Author's response to the Editor

We are deeply grateful to the Editor for his suggestions and corrections. We see them as an effort to improve the article and have accepted all of them, highlighting them **in red** in the text.

In addition, we have inserted all the citations that were not in the list of references.

Lastly, we have changed the title of the manuscript to one that has more connection to our research (“**Impact of reservoir evaporation on future water availability in North-Eastern Brazil: A multi-scenario assessment**”) and moved the text of the last Discussion item to a new item (please see section 5.4).

All the authors have reviewed the final version and agree with the changes.
