Figure S1. Trend comparisons with radiosondes: (a-b) TPW trends' difference (mm dec⁻¹) between radiosonde observations and ERA5 and JRA-55 from 1979-2019. (c-d) Same as (a-b) but for temperature trends' difference (K dec⁻¹). A total of 331 radiosonde observations were used in the analysis.

11
12
13

Figure S2. Trend comparisons with satellite observations from 2003-2021: Total precipitable water (TPW) trends over oceans for (a) ERA5, (b) JRA-55, (c) AIRS satellite, and (d) SSMI satellite. The hatch areas represent trends that are not significant at a 95% confidence level.

14 **Table S1.** Discontinuity positions of TPW in ERA5 and JRA-55 during 1958-2021 over regions, and
 15 coincident changes in the observing systems that might be used in the assimilation.

Dataset	Regions	TPW		
		Dates (yyyy-mm)	Stepsize (mm)	Detected Discontinuities*
ERA5	Land	1991-07	-0.43	Approx. discontinuity position detected when changing assimilation data from HIRS NOAA-10 to NOAA-12
		1997-09	0.65	/
		1999-02	0.65	Approx. discontinuity position detected when changing assimilation data from NOAA-12 to NOAA-11
	Ocean	1977-01	-0.81	Approx. discontinuity position detected when changing assimilation data from DMSP14 SSMI to 15
		2001-06	0.66	/
		2009-06	0.51	Approx. discontinuity position detected when assimilation of METEOSAT 7 GEOS data
		2015-05	0.36	Approx. end of DMSP 13 and the start of assimilation of DMSP 17 SSMI
	North American	1977-03	0.59	Approx. discontinuity position detected when assimilation of multiple satellites e.g., AMSR-2, CRIS
		2014-07	-0.53	/
	JRA-55	Land	1991-07	0.60
Tropical land		1972-02	-0.50	/
		1982-06	0.86	/
		1991-06	-1.46	/
		1997-09	0.85	/
		1999-02	0.93	/
NH polar		1960-09	-1.18	/
		2003-07	-0.38	Approx. discontinuity position detected when assimilation of AMSU and MHS satellite in Jun. 2003
North American		1963-11	0.31	/

16 * These discontinuity points are matched if the difference between metadata events and discontinuities
 17 detected was within ± 3 months. The metadata events were taken from references (Hersbach et al., 2020;
 18 Kobayashi et al., 2015).

19 **Table S2.** Dates of discontinuities of T_{2m} in ERA5 and JRA-55 during 1958-2021 over specific regions, and
 20 coincident changes in the observing system or changes of the input to the assimilation system.

Dataset	Region	T_{2m}		
		Dates (yyyy-mm)	Stepsize (K)	Detected Discontinuities*
ERA5	Land	1963-11	-0.39	/
		1973-12	-0.22	Approx. discontinuity position detected after assimilation of DROP Sonde
	Ocean	1964-02	-0.18	/
	North American	1963-11	-0.54	/
	Tropical land	1973-09	-0.38	Approx. discontinuity position detected after assimilation of DROP Sonde
	NH polar	2004-12	1.05	Approx. discontinuity position detected after assimilation of METEOSAT 8 GEOS
JRA-55	Land	1973-10	-0.35	/
	Ocean	1978-11	0.17	Approx. discontinuity position detected after end assimilation of use VTPR in Feb 1979
		2015-07	0.21	/
	Tropical land	1960-12	-0.40	/
		1973-03	-0.52	Approx. discontinuity position detected after assimilation of VTPR in Jan 1973
		1976-10	0.38	/
	NH polar	1962-08	-0.90	/
		2004-12	0.95	Approx. discontinuity position detected after end assimilation of SSM/I in Dec 2004
North American	1997-11	0.61	Approx. discontinuity position detected after TMI in Feb. 1998	

21 * These discontinuity points are matched if the difference between metadata events and discontinuities
 22 detected was within ± 3 months. The metadata events were taken from references (Hersbach et al., 2020;
 23 Kobayashi et al., 2015).

24
25

Table S3. Dates of discontinuities of T_s in ERA5 and JRA-55 during 1958-2021 over regions, and coincident changes in the observing system or changes of the input to the assimilation.

Dataset	Region	T_s		
		Dates (yyyy-mm)	Stepsize (K)	Detected Discontinuities*
ERA5	Land	1963-11	-0.50	/
		1973-12	-0.34	Approx. discontinuity position detected after assimilation of DROP Sonde
	Ocean	1970-05	-0.19	/
	North American	1964-02	-0.57	/
	Tropical land	1970-06	-0.47	/
	NH polar	2004-12	1.11	Approx. discontinuity position detected after assimilation of METEOSAT 8 GEOS
JRA-55	Land	1971-01	-0.52	/
	Ocean	1963-12	-0.17	/
	Tropical land	1978-11	-0.66	Approx. discontinuity position detected after assimilation of HIRS and SSU in Nov. 1978
		1976-07	-0.15	/
	North American	1997-10	0.51	Approx. discontinuity position detected after assimilation of TMI in Feb. 1998
