

Replies to Editor

Dear Editor,

Re: Manuscript entitled "Exploring the Potential Processes Controlling Changes in Precipitation-Runoff Relationships in Non-stationary Environments".

We sincerely appreciate the editor's review and suggestions regarding the manuscript. We have carefully considered and responded to all recommendations point-by-point as follows. For clarity, all recommendations are given in black and responses are given in blue text. All the recommendations have been replied to below and revisions have been made in the manuscript.

Yours sincerely,

Tongfang Li

Recommendation:

All comments have been addressed, and the paper is ready for publication following a thorough proofreading. For instance, the phrase 'Potential Processes Controls of' in the title (and throughout the paper) could be revised to 'potential processes controlling changes in' to improve readability.

Reply: We greatly appreciate the recommendation. We have made revisions to the relevant content in the manuscript, as detailed in Table 1.

Table 1. The lines and content revised in the manuscript.

Number of lines	Before revision	After revision
1	Potential Processes Controls	Potential Processes
	for Changes of	Controlling Changes in
114	potential processes controls	potential processes
	for changes in	controlling changes in
117	potential processes controls	potential processes
	on changes in	controlling changes in
528	Changes of potential	Potential processes
	processes controls in	controlling changes in
529	potential processes controls	potential processes
	for changes of	controlling changes in
551	changes of potential	potential processes
	processes controls in	controlling changes in
